MYSORE P. W. DEPARTMENT,
CENTRAL OFFICE,
Bangalore 30th June 1892.

From

The Superintending Engineer of Mysore.

To

SIR,

The Chief Secretary to the Dewan
of Mysore. —

With reference to Govt: Pro: no: 4343-4/116 dated 5th instant, I have the honor to enclose copy of docket no: 2477/293 dated 20th idem, from the Executive Engineer, Mysore Division, reporting that the Kalale Chelvamba Bank in Kanjangud Taluk was never breached for repair, and that the work did not in any way prevent the canal cultivation being carried on under the Bank. This being the case, the remission of assessment sanctioned by Government should apparently be cancelled. It is extraordinary how such a report, that the P.W.D. breached the Bank, should have been made to Government. —

I have the honor to be
Sir
Your most obedient Servant
C. Lowe. Colonel R.E.
Chief Engineer of Mysore. —

To.

The Chief Engineer
in Mysore.

Sir.

In reply to your letter No. 3179, dated 30th June/92, I ~~am directed~~ have to state that you are right in saying that the tank was never breached. The mistake was made in this office and not by the Deputy Commr. All the same however, it appears from the Deputy Commr's applications for remissions that no water was available in the tank, because it was let out to allow the work of repair to go on during the years 1887-88, 1888-89 and 1889-90. and remissions have been sanctioned for these years in the Government Progs: noted in the margin. On the receipt of your letter under

* No. 4341/114 dated 5th June 1892.

under reply, the Sanction accorded for 1890-91 has been withdrawn, pend-ing a further report which the Deputy Commr has been called upon to Submit.

16

I have seen

Dated Mysore 24th December 1892.

From

A. Rangasami Iyengar Esqr. B.A. B.L.
Deputy Commissioner,
Mysore District.

To

The Chief Secretary to the Dewan of Mysore,

SIR,

(47)

In reply to Government Proceedings No. 1436 R.T. 64-92 dated 23rd July 1892, calling for Explanation as to the circumstances under which the remission of the moiety of wet assessment of lands under Chelvamba Tank, Nanjangode Taluk, was recommended for 1890-91, I have the honor to report that the remission was recommended on the Taluq Sheristadar's certificate made at the foot of the remission list received from the Taluq, which is herewith submitted, for perusal and obliging return.

The Amildar on being called upon for explanation reports that during 1890-91 crops failed for want of sufficient water in the Tank and that the certificate "that water was let off by opening the sluice for the purpose of repairing the tank and the feeder channel" was a mistake.

It

It is clear from the Executive Engineer's docket No. $\frac{4029}{365}$ dated 9th October 1892, here: with submitted that the tank did not receive a sufficient supply of water for raising wet crops.

Vernacular correspondence ending with 3d General Assistant Commissioner's Yadi No. 203, dated 15th Instant is herewith submitted for perusal and kind return.-

I have the honor to be,
Sir,
Your most Obedient Servant.

Enclosures No

General No. 4029
No. 385

Rbl Mysr. Jr 14/10. acct dept 18/10

Your No: 175 of the 12th August last requesting to know (1) when the repairs of the Kalale Bheluamba tank in the Kanjangud Taluq were undertaken and completed, and (2) whether there was water in the tank so as to carry on cultivation under it in 1890/91, and if so, whether it was let out by this Department.

— o —

In reply has the honour to inform as follows: —

1st The restoration of the

the tank and its feeder was undertaken in June 1889 and completed last year.

2nd That in 1890/91 no water was let out from the tank by this Department, as it was not necessary to do so; but that it would appear from the report of the subordinate in charge that the ryots did not raise wet crops under the tank during that year on the ground that the supply received was insufficient. It is a fact that the tank did not receive a full supply during the said year.
